SKILLS & PROFICIENCIES

Programming Languages: Javascript, Golang
Frameworks & Libraries: React, Next.js, Redux, React-Native, Apollo GraphQL, Nodejs, Express, Tailwind Css
Database: MongoDB, PostgreSQL
Tools: Git, Github, Xcode, Android studio, Codepush
Soft Skills: Team management (2-4 developers), efficient problem-solving skill, excellent communication.

EXPERIENCE (5+ YEARS)

Senior Full Stack Developer | VST INC | UAE - Remote   **12/2023 - Present**
- Led a team of 4 developers, overseeing the full-stack architecture and delivery of two production-ready projects.
- Designed and implemented robust frontend (Next.js) and backend (Node.js + GraphQL) systems, optimizing performance and user experience.

Senior Full Stack Developer | Blueliner Marketing, LLC | USA - Remote   **09/2021 - 11/2023**
- Led the development of a cross-platform scorekeeping app (React Native + Node.js + GraphQL) used for investor demos and funding pitches.
- Built scalable backend infrastructure and integrated real-time data flows for enhanced user engagement.

Web Development | SoftBd LTD | BD - Onsite   **01/2021 - 09/2021**
Frontend (React)

PROJECTS

1. Comprehensive Medical Management System
Built a secure platform for doctors and assistants to manage patient data and streamline workflows.
Stack: Next.js, Redux, Node.js, MongoDb, GraphQl.
Live: https://dev-boltzmann.vstinc.com/

2. Medical patient portal
Developed a patient portal for booking appointments, tracking vitals, managing tasks, and accessing an AI health assistant.
Stack: Next.js, Redux, Node.js, MongoDb, GraphQl.
Live: https://dev.myinsightcare.com/

3. Event booking & Nft Market Place Project
Created an event booking platform with NFT purchasing for use as player avatars in a gaming app.
Stack: React, Node.js, Mongodb, GraphQl, Solidity, Web3.js
Live: https://app.basementsports.com/

4. Mobile App (Andrdroid & iOS) Project
Built a cross-platform app for managing tournaments, live streaming, and tracking player stats using NFTs as avatars.
Stack: React Native, Node.js, MongoDb, GraphQl
Appstore: https://apps.apple.com/us/app/basement-sports/id1545727214
Playstore: https://play.google.com/store/apps/details?id=com.basementsports

5. Life management app (iOS & Android)
Created an app for setting goals, tracking time, habits, and daily activities to enhance productivity.
Stack: React Native, Node.js, GraphQl, Mongdb

6. Built projects with Go
Github: https://github.com/Real-Musafir/go-lenslocked
Github: https://github.com/Real-Musafir/go-mongo-server
Github: https://github.com/Real-Musafir/car-zone-go-server

EDUCATION

BSc in Electrical & Electronics Engineering   **03/2016 - 12/2020**
CGPA: 3.10
