BAOMOI WEBSITE

Description: The BAOMOI website was designed and developed to provide users with a streamlined experience for accessing news and information. This project involved generating creative ideas, coordinating tasks among team members, and analyzing business operations for effective implementation.

Key Responsibilities:

- **Team Coordination:** Assigned tasks to team members to ensure smooth workflow and timely completion of project milestones.
- **Business Analysis:** Studied the business operations to understand requirements and inform system design.
- **System Design Analysis:** Conducted analysis to create a robust and scalable website architecture.
- **Implementation:** Developed the website using HTML, CSS, and PHP, ensuring a responsive and user-friendly interface.

SKILLS

- Proficient in Java and Flutter; strong grasp of OOP principles and database systems.
- Skilled in reading, understanding, and analyzing requirements.
- Completed coursework in PHP, C#, HTML, and CSS.
- Creative Thinking
- Time Management
