

# Đỗ Huỳnh Đức

## Lập Trình Viên PHP

I'm a backend developer with 5 years experience in designing, developing, and optimizing web applications.

My strength is the backend programming in PHP (Laravel) and other languages like javascript (Vue), Java (Spring boot).

I have experience in building sales, distribution, third party payment (including Shopify or other ecommerce platform) and payment gateway systems.

I'm able to work independently or in a group, always willing to support other team members.
