I would like to change my work environment to find a new challenge. With 4 years in the position of Web developer. I have realized that I have sufficient experience in web development to support and promote business development operations. In the short term, I will make an effort to successfully complete the assigned tasks. My respiration is to become a tech lead in the field of web developer in the long term.

EDUCATION

2015 - 2020

Hanoi University of Science and Technology

Graduated - GPA:3.17
