NODEJS DEVELOPER

Objective:

Final-year Computer Science student with 1 year of experience in automated testing for networking products using JavaScript. Building foundational skills in Node.js, with practical exposure to web scraping, RESTful API development, and backend development. Eager to grow and contribute technical knowledge and teamwork as a Node.js Developer.

EDUCATION

Hanoi Pedagogical University 2   **2020 -2024**

Expected Graduation: [12, 2024]
Bachelor of Science in Computer Science

WORK EXPERIENCE

Fresher - Automated Testing

[Arcadyan technology]   December, 2023 – October, 2024

- Developed and executed automated test scripts for router and Wi-Fi products using JavaScript.

- Identified and reported bugs, enhancing the overall quality and performance of networking products.

- Collaborated with the development team to integrate automated testing into the CI/CD pipeline.

- Contributed to the creation of detailed testing documentation and test plans.

PROJECTS

[Web Scraping and API Development] October, 2023 – May, 2024

- Developed a Python web scraper to extract accurate product data from e-commerce sites.
- Built a Flask RESTful API with error handling and efficient data retrieval.
- Created a responsive React frontend for displaying product details with a user-friendly interface
